

## Océ Outdoor Scrim Vinyl Banner - OBSCRM16

*For outdoor signage and promotional banners*

<b>Product Description</b>	A matte heavy-weight high quality inkjet coated scrim vinyl, with excellent imaging characteristics when printed with either dye or pigment aqueous inks.			
<b>Physical Properties</b>	Caliper	15 mil		
	Opacity	98%min. (with a black out layer)		
	Whiteness	100 min.		
	Brightness	90 min.		
	Weight	13 oz.		
	Gloss @ 60 degrees.	2 min.		
<b>Features</b>	Dye and pigment ink receptive.			
	Bright white base for wide color gamut.			
	Exceptional hot and cold laminate characteristics.			
	Some water repellency when using outdoor inks.			
	Quick dry-time for overnight printing.			
	Easy for grommeting and sewing.			
	High ink load retention (up to 400%).			
<b>Available sizes &amp; Item Numbers</b>	Width	x	Length	Item Numbers
	24"	x	45'	OBSCRM1601
	36"	x	45'	OBSCRM1602
	42"	x	45'	OBSCRM1603
	50"	x	45'	OBSCRM1604
	54"	x	45'	OBSCRM1605
	60"	x	45'	OBSCRM1606
	36"	x	5'	OBSCRM1608
<b>Storage conditions and Shelf Life</b>	Temperature 59-77°F. (15-25°C°).			
	Relative Humidity 30-70%.			
	Please repack opened rolls when not in use.			
	One year at conditions noted above.			
	Allow material to adapt to room conditions 24 hours before printing.			
<b>Environment, Health &amp; Safety</b>	No Material Safety Data Sheet required.			
	Waste not suitable for recycling.			
<b>Main applications</b>	Designed for a variety of banner applications and advertisements. Indoor/outdoor signage applications advertisements, POP displays. Presentation/trade show exhibits. Hanging banners.			
<b>Lamination Tips</b>	Suited for both hot and cold lamination.			
	For heat activated lamination allow adequate dry time before lamination.			
	Two-side lamination recommended as one side lamination may cause curl.			
<b>Outdoor Suitability</b>	This media is recommended for both indoor and outdoor applications.			
	The information is given without guarantee and does not constitute a warranty.			
	Dye based inks will yield better colors.			
	Outdoor life expectancy up to 6 months (1 year with overlamine), only when OEM pigmented inks are used.			
<b>Compatibility Chart</b>	For printer compatibility tables and to find out what printers this product works best with, go to <a href="http://www.oceusa.com">www.oceusa.com</a> and download the latest version Océ compatibility chart.

# Océ - Outdoor Scrim Vinyl Banner - OBSCRM16

---

*For outdoor signage and promotional banners*

<b>Processing Tips</b>	Outside of roll is side to be printed. Print in a dust and dirt free environment (59-85°F, 30-70%RH). Daily check and clean cartridge is recommended prior to printing. Recommended ink laydown not to exceed 400%. Use process black as opposed to composite black for optimum results. Océ equipment color profiles are available from the Océ web site: <a href="http://www.oceusa.com">www.oceusa.com</a> . For HP printers use "test media" to determine best setting for printing.
<b>Application Tips</b>	This information is presented as a general guide only and is not a performance guarantee. Test first! Product recommended for vertical application on flat surfaces. Always insure that surface is clean and dry prior to application.
<b>User Tips</b>	In order to prevent problems with cartridges, preventive maintenance by the customer on a daily basis is essential. Prior to starting your print job make a prime test plot. If all nozzles are not open, redo this test or make a "color test" print. Keep cartridges and their environment as clean as possible. Clean the service station assembly with water on a regular basis (preferably each day). Keep electrical contacts, flex cables and carrier clean from ink.
<b>Color Profiles Display Graphics printers</b>	For all Océ inks specific color profiles were developed to obtain maximum image quality. Color profiles are ink, media and machine specific. Profiles are available from web site <a href="http://www.oceusa.com/resourcecenter">http://www.oceusa.com/resourcecenter</a>
