*All life term ratings are based on proper mounting to reduce wind whip. See Herculite banner fabrication guide. Refer to ink manufacturer ratings for graphic durability. Printer's Choice is a non-top coated product that requires UV or Solvent based ink systems. Stock rolls sizes of 36" and 54" are 300 yds. and 100 yds. for 72". Special widths and roll sizes are available upon request. The physical properties of Printer's Choice stated above are based on ASTM test averages. The values are to be considered as source information and do not constitute warranty.

Your #1 Choice in Graphic Substrates!
